**RE: Your Offices' Malicious Intent and Criminal Attempts to deprive me of property  
and Conceal serious crime**

Dear Mr. Moss,

I demand to hear your Office's legal defence as to why you have maliciously blocked all access to the online filing system so that I cannot file my work or administer any of my patents?

Your own staff have stated that they cannot understand why I am unable to file anything and have confirmed your system is working. I tried filing from 5 different computers and your Office has deliberately blocked me.

I allege that your Office did this maliciously and without any legal reason other than to further inflict emotional suffering upon me and to try to prevent me acquiring further assets and to prevent me from following my career and dreams. This is because I have exposed your Office's participation in organised crime and your black market in IP rights which undermines the United Kingdom economy. This has subsequently been reported to the Serious Fraud Office.

Please also provide an explanation as to why you have refused to provide my receipt for the patent application for FanTail Ties that I filed by post on 11<sup>th</sup> May and which your Office signed for on 12<sup>TH</sup> May 2022: delivery confirmation attached. I note it has been signed for by the name of 'PERRY'. Please confirm there is an employee at your Office having the name of 'Perry'. I am obviously suspicious due to that being my surname.

Finally, please also provide your Office's legal reason as to why you haven't provided me with the list of names of your Board members or the people controlling your Office as per email request with Mrs. Smith on 11<sup>th</sup> May.

I have a constitutional right to file my work and benefit from my investment, talent and creations. If you cannot provide any credible legal/lawful excuse I will be issuing criminal charges against your Office. I demand access to the online filing system immediately and ahead of the scheduled meeting in June.

Regards,

Richard Perry
